MERRY WIDOW IS IN TONOPAH

"The Merry Widow Brown," is an acquittal, all the evidence was of the exculpatory rather than the corroborative sort and nobody storied. There is much that might be said of Mrs. Brown, but the town folks say that she was discreet, not loud, and popular because she was Bohemian.

Mrs. Balliet told the life story of this widow last evening in a tuneful way, and sang "Mamma's Boy" with a military effect, creating the most favorable comment from large audiences, and inviting applause that was a monument to her delightful voice, and manner of interpreting.

Alfred Kells did a dance, and then done it again because the audience demanded it. Singing the "Old See-Saw" he told a whole lot of things about kids, and such things, and we wonder if it isn't a good idea to become reminiscent and kind of figure out that plank that we rode up and down on, and dream of the things which are finished—but hadn't ought to be.

Mrs. Balliet and Alfred Kells will be heard again this evening only at the Butler. The entire program is of the finished sort.

MANHATTAN MILL WILL SOON START

MACHINERY HAS BEEN OVERHAULED AND EVERYTHING IS IN SHAPE.

D. C. Fessenden, superintendent of the Manhattan Mill company, which now owns the old Lemon mill plant, arrived in Tonopah yesterday after a month's absence in the northern camp.

"The mill has been entirely overhauled," said Mr. Fessenden, "and our first run will be made the latter part of this week on ore from the Shear lease. We have contracted for the handling of ores that will keep us running for considerable more than a year. Our company has taken leases on 12, 13 and 14 on Union No. 9. We intend putting a big force of men to work on these leases in a few days. On Union No. 1 they have uncovered quite a few veins and the property is looking fine."

"The Rose-Nash lease began the work of unwatering their property and this means the starting up of the adjacent leases as they all handle their water through this shaft."

"Quite a few new faces are seen in the camp daily and I believe Manhattan will in the very near future be the recipient of much attention from outsiders and investors."

STOCKHOLDERS HAVE BEEN SUED

SAN FRANCISCO, Aug. 12.—Four hundred stockholders of the late California Safe Deposit and Trust company were yesterday called on to make good the sum of \$5,250,000 for the depositors of that institution, through the medium of a suit filed in the superior courts of the city of San Francisco.

Rosenheim and Weyl, attorneys for the depositors' association of the wrecked bank, drafted the complaint, asking that the above sum be paid to the receiver. The suit is brought jointly against James Treadwell and other directors, and the stockholders under the provisions of the statute which makes the officers liable for twice the amount of their holdings of the paid-in capital stock of the bank.

The California Safe Deposit and Trust company had an authorized capitalization of \$3,000,000, of which 24,250 shares of the par value of \$100 had been fully paid in when the manipulations of J. Dalsell Brown and others brought the bank to ruin with liabilities approximating \$10,000,000.

All of the alleged acts of a wrongful character, which the probe of the receiver has unearthed, were set forth in the petition for judgment against both the stockholders and the directors of the concern.

REGISTRATION IS NOW IN PROGRESS

CAPITAL LOOKING TOWARD NEVADA

JUDGE VOLNEY HOGGATT PRE-DICTS COMING OF CAPITAL TO STATE.

Judge Volney Hoggatt, who is one of the most extensive travelers in these United States, and who in the course of his travels visits nearly all the mining camps and comes in contact with mine operators, says that Tonopah is the best camp that he has seen for many a day.

"The fact that every month in Tonopah sees a quarter of a million in wages paid to labor," said Judge Hoggatt, "is ample evidence to the outsider that you have a camp that is producing the mineral. In scanning the columns of your paper I observe that you ship between five and six thousand tons of ore weekly to the various mills. This speaks volumes for itself and this shipment, I understand, does not include ore handled at the Montana."

"There is a great deal of interest manifested on the mining outlook for Nevada and now that the labor conditions in Nevada are settled I look for the incoming of capital to develop properties and that the investor will be richly rewarded for their investment permits no argument."

Judge Hoggatt, who enjoys the distinction of being president of the Overy Men's association, an organization that sprung into existence some years ago and which has a large membership, says he went to Chicago for the purpose of inducing some few subjects to become members of the association. The judge returns a much crestfallen man. He will take you around a corner and inform you that it is down and out, for the Hearst Independence league has gobbled up every onery man in existence.

ASK HONDURAS FOR EXPLANATION

WASHINGTON, Aug. 12.—The state department is taking up directly with the government of Honduras the settlement of the questions arising from the cancellations of the exequaturs of the American consul and vice consular offices at Celba, which was done by President Davila because of the alleged intervention of those officers in the political affairs of Honduras.

For this purpose it has directed Dodge, the American minister at Salvador, to proceed at once to Tegucigalpa, the capital of Honduras, for conferences with the officials of the foreign offices there. In this case the state department is ignoring the Honduras minister here, Ugarte, who has not been to the state department since he had an interview with Bacon about ten days ago, which it is said terminated rather abruptly.

The result of Dodge's visit is awaited with considerable interest at the state department, which feels that Honduras has acted hastily and in an expert manner in cancelling the consul's exequaturs.

HE ADMITS THE LOSS OF BRIDE

CHICAGO, Aug. 12.—A letter that came from Omaha today lifts, a little way at least, the veil of mystery that has surrounded the abduction of Miss Ethel Ludwig, "coed" of the Stanford university and the love affair between the pretty young woman and Fred F. Fitzgerald, professor of chemistry in Cooper medical college, San Francisco.

The letter was from Professor Fitzgerald himself and was received by his friend, Blaine Erickson of Morris, Illinois, scene of the abduction and much of the action of this spirited romance.

Professor Fitzgerald wrote on the overland limited, en route to his home in San Francisco. He gives information as to why the girl's mother, Mrs. Otto Ludwig, was opposed to him marrying her daughter, and why the entire Ludwig family conspired to thwart the match. They believed, or professed to believe, that the professor was an epileptic.

The professor acknowledges defeat, says he has written to Miss Ethel to the effect that "everything is off" between them and that he intends to go to Europe.

ASSAYS WAY UP IN THOUSANDS

NEVADA CITY, Aug. 12.—News comes from Forest City of a new and phenomenal gold quartz discovery. Constable A. M. Bixby, who is one of the old prospectors of the Forest district, made a strike last week that has excited the town. Bixby located a claim on Lucky Dog creek, about a mile from Forest.

He was prospecting the ledge and had some of the ore assayed. To his surprise and the astonishment of everybody it showed a return at the rate of \$32,640 per ton. The ore shows no free gold, but is full of arsenical sulphides. At last accounts he had extracted some seventy pounds of the rock.
